

HomeBuilder Release Notes

Product: HomeBuilder

Release: 4.0

Version: 1.0.2022042219.45166

Release Date: 2022-04-22

Please review the [“HomeBuilder Release Notes Testing Advisory”](#) prior to installing on your system.

Release Overview

This is a regular, scheduled Dynamics Business Central SaaS release of HomeBuilder on Microsoft AppSource. This release contains improvements and fixes, as reported in implementations and usage, by consultants and/or customers and is aggregated monthly. Details below.

To report any issue or request an enhancement in HomeBuilder or Retainage please submit an email to homebuilder@suiteengine.com.

Enhancements:

1. Introducing Lot functionality to the sales system in BC. The origin is for customers that would like to rent units and use the sales system to do this. The start is to integrate all the systems, once complete we will move to automating the creation of sales invoices.
 - a. Sales Invoice Card. Ability to manually enter lines that will be posted and affect lot cost actuals. This can be done using two options:
 - Enter Type='Item', No., Phase Code, Lot Code
 - Enter Type='G/L Account', Phase Code, Lot Code, Cost Detail Code
 - b. In both cases, if the system is able associate sales line with existing planning line, it will create one upon user's confirmation.
 - c. Sales Invoice Card. Action "Populate from Planning Lines" is added.
2. Fact Boxes are added to the following pages:
 - Construction Items
 - Construction Item Card
 - Vendor Contracts
 - Contract Revision Items
 - Lot Selection Choices
3. Field "Available" is made editable in the lists of Global Items and Construction Items.
4. One more functional permission "CAN SEE MODEL PRICES" is added. This functional permission allows a user to view prices in Models and Model Lot Types.

5. For License Type 'Test', posting is enabled for any year but still restricted by December and January.
6. HomeBuilder License Selection: On changing license type to "Test", the system requires that company name contains word "TEST" (not starts with "TEST").

Corrections:

7. Customer cheque reports have been adjusted to accommodate safe fonts.
8. Bug Fix: On changing field "Available" in Construction Items, it gets propagated to Phase Items in all companies.
9. HomeBuilder Setup: Fixed dependency between 'Local vendors creation not allowed' and 'Local vendor modification not allowed'
10. Bug fix: Standard Adjustment Journal now shows lines for closing adjustment template only.
11. Spelling of "HomeBuilder" is fixed in numerous objects.

Release Objects

The following objects have been created, modified, or removed as part of this release:

Object Type	Object ID	Object Name	Object Extended	Action
Table	70526075	SEHB Home Builder Setup		Modified
Table	70526081	SEHB Phase		Modified
