Release Overview

This is a regular, scheduled Dynamics Business Central SaaS release of Retainage Payables on Microsoft AppSource. This release contains improvements and fixes, as reported in implementations and usage, by consultants and/or customers and is aggregated monthly. Details below.

To report any issue or request an enhancement in HomeBuilder or Retainage please submit an email to homebuilder@suiteengine.com.

Enhancements:

1. Boolean flag "Allow Manual Retainage Lines" in "Purchases & Payables Setup". Turning this flag to "Yes" makes column "Retainage" in the lines of a purchase document editable. This will allow a user to add retainage or retainage release line to a purchase document manually.
