INTRODUCTION

Rental Process Management provides key functionality for equipment dealerships that rent, sell and service equipment. CPM (Channel Payments Manager) provides payment processing functionality for Dynamics 365 Business Central. The RPM CPM application is a free application that integrates CPM with all of the RPM documents that require payments. RPM CPM makes payment processing simple and worry free.

DEPENDENCIES

RPM CPM requires that the Business Central tenant have the latest versions of both Rental Process Management and CPM.

EXTENSION MANAGEMENT

After installation, in page "Extension Management", make sure that app "RPM CPM" is installed.
