

# Suite Engine Channel Sales Manager Release Notes

**Product:** Channel Sales Manager Core

**Release:** 4.3

**Version:** 4.3.2024052824.137858

**Release Date:** 06/04/2024

**Minimum Business Central Version Compatibility:** 22.0

Please install this release in your Business Central sandbox environment for testing. It is Suite Engine's recommendation that you test not only the areas specifically addressed within this release but all of your business processes, so that you may confirm that changes introduced in this release have not created issues in other parts of your application. These release notes should be fully reviewed as part of your testing process, as they may include information on new setup and configuration requirements.

If you encounter issues in your testing, please contact your Suite Engine partner or file a support ticket at <https://suiteengine.com/support>.

Once you have completed testing in your sandbox, you can proceed to installing this release in your live environment. Suite Engine recommends that users be logged out of Business Central prior to installation of the release; if this is not possible, please advise your users that it may be necessary to refresh or log out/log in to Business Central in order to continue working with the application.

This release is issued under the assumption that you have kept your existing Suite Engine applications current. Suite Engine cannot be held responsible for any issues that arise out of installing this release into an out-of-date environment.

This release may introduce new table objects or modifications to existing ones. If you are maintaining configuration packages for the purpose of moving data to and from database environments, you are advised to take note of any table changes (for a complete list of release objects, see [here](#)) and make any adjustments to these packages as needed.

## Release Overview

### Features and Functionality

- A new **Consolidated** option has been added to the **Sales Tax Behavior** field on the **CSM Sales Channel** table. When this option is enabled and CSM generates a sales order from retrieved eCommerce data, a single sales line representing all sources of sales tax will be entered.

### Channel Foundations

The following Channel Sales Manager Core changes will support forthcoming features and functionality for channel-specific integrations:

- To support an upcoming BigCommerce integration, new API operations have been added to CSM Core’s standard dataload.

### Corrections

- CSM listing prices were not being calculated/sent to a connected eCommerce channel in Business Central environments using the new sales pricing experience. This has been corrected.

### Release Objects

The following objects have been created, modified, or deprecated as part of this release:

Object Type	Object ID	Object Name	Action
Table	70338220	CSM Sales Channel	Modified
Table	70338240	CSM Listing	Modified
