

Suite Engine Channel Sales Manager Release Notes

Product: Channel Sales Manager for Amazon

Release: 3.3

Version: 3.3.2024040524.129365

Release Date: 04/05/2024

Minimum Business Central Version Compatibility: 22.0

Please install this release in your Business Central sandbox environment for testing. It is Suite Engine's recommendation that you test not only the areas specifically addressed within this release but all of your business processes, so that you may confirm that changes introduced in this release have not created issues in other parts of your application. These release notes should be fully reviewed as part of your testing process, as they may include information on new setup and configuration requirements.

If you encounter issues in your testing, please contact your Suite Engine partner or file a support ticket at <https://suiteengine.com/support>.

Once you have completed testing in your sandbox, you can proceed to installing this release in your live environment. Suite Engine recommends that users be logged out of Business Central prior to installation of the release; if this is not possible, please advise your users that it may be necessary to refresh or log out/log in to Business Central in order to continue working with the application.

This release is issued under the assumption that you have kept your existing Suite Engine applications current. Suite Engine cannot be held responsible for any issues that arise out of installing this release into an out-of-date environment.

This release may introduce new table objects or modifications to existing ones. If you are maintaining configuration packages for the purpose of moving data to and from database environments, you are advised to take note of any table changes (for a complete list of release objects, see [here](#)) and make any adjustments to these packages as needed.

Release Overview

Features and Functionality

- It is now possible to instruct CSM for Amazon to automatically assign lots to lot tracked items on FBA orders. There is a new **Auto Assign Lot** Boolean field that only appears on FBA sales channels; if this field is enabled and an FBA order for a lot tracked item is retrieved from Amazon, CSM will automatically assign lots for that item from the order's assigned location. Because Amazon does not provide the specific lot numbers that were included for a given order, CSM automatically assigns lots based on their posting date, from earliest to latest.

Miscellaneous

- The minimum compatible Business Central version of *CSM for Amazon* has been updated to version 22.
- The Suite Engine logo within *CSM for Amazon* has been updated to reflect new marketing requirements.

Release Objects
